

Single Page Self-Print Instructions

1. Download the "Self-Print" PDF

2. Print as many 8.5" x 11" pages as needed to achieve the pantograph length you want.
NOTE: Before you print, make sure the page is scaled to 100%

3. Overlap pages until the images on the separate sheets become a continuous design. Once the pages are aligned, secure with tape. Now you're ready for quilting!

NOTE: The process will be the same whether the design is printed as portrait or landscape.
